Third and Fourth Grade News

Have you ever thought of how important an education is? Yes, an education is the best thing that any parent can give his child. Right now the children in schools all over the world are having their lives led in an enlightening path leading towards higher and more important lives, discoveries and positions.

We all had a good time at the school fair. We want one next year, too.... We have been working hard so we can finish our books....The third graders are learning times and division in arithmetic. The fourth graders are doing hard problems in division....In health the fourth grade has been learning about First Aid. ...I. In Geography we learned all about the Netherlands and Switzerland.... We made May baskets last Friday for May Day.

Each time that a step is taken to increase the education of our children, the children of that generation are placed one step higher than before. With a good education we can help to improve the prosperity and knowledge of the world in which we live. In the future, the fact that the children were well-educated now might help account for interplanetary space travel.

First and Second Grade News

We made May baskets on May Day. We put paper flowers in them. Mr. Romer's students gave a play for us in assembly program Friday afternoon. They called it "This is No Life."

TANANA SCHOOL NEWS

There was a Fair at the Tanana School Saturday, April 25 from six until 10 P.M. There were booths where you could throw darts, have your fortune told, do a ring toss, buy "white elephants," homemade items, and buy souvenirs. One room was the movie room. Walt Disney cartoons were shown. You could buy popcorn and candy in the hall. Everyone enjoyed buying hot dogs, cake, cookies and coffee. Most all the people in town were there and I believe they all had fun.

We are glad spring is here. We planted flower seeds in cans in our room. We decorated our room with birds, flowers and lambs.

We will finish our reading books this week. We have been going in our stocking-feet since Mr. Dick waxed our floor. There is so much mud on our shoes, we leave them in the hall.

There's a man at the White Alice Site who is a very good Fortune Teller, as every one said.

We had a Spelldown at the school on Friday, the 24th of April. All the winners received a dime.

HOSPITAL NEWS

A hearty welcome is extended to Mary McGill from Anchorage who has assumed the duties of Alice Peters. Mary and Jeannie Elia now comprise our office personnel crew.

The welcome mat is also out to: Marsha Fehrenbaucher, R.N., and Norma Dunlap R.N. We hope their stay here will be a happy one. (We hear that there is another new nurse but as yet the school has not received her name.)

FLY WIEN ALASKA AIRLINES

It's more dependable.
It's more comfortable and faster.
Daily flights to Fairbanks and on Wednesday's and Saturday's there are flights to Ruby, Galena and Nulato.
Make your reservations early to eliminate disappointment. We like to have you aboard.

Our dentist has finally come home to stay: Dr. McQueen and Ada Jakes have returned to Tanana having made field trips to Fort Yukon, Eagle, and Fairbanks.

Leaving us is Marlene Henson and Mary

One day Larry Grant, Marshall Smith, and I were going to the old mission. We went to the old Church and looked at the books that were in a trunk. They dated back to 1903. Then we went into all the other houses. It was fun. We started on our trip at 10:30 and it ended at 3:00.

A Fishing Trip..... Helena Wheeler

Last Sunday we went fishing. Nick Nichols, Linda, Joyce and I went. We went to the end of the runway on the river. We chopped about seven holes in the ice. We never caught any fish.

Steven Peters of Mulato came up to get his teeth fixed. He is staying at Buster Kennedy's house.

THE NORTHERN COMMERCIAL CO.

We have just received a few of the well-known blouses by La Ro. Also, some famous Murray 24" and 26" bicycles. Some new goods have arrived for the kitchenware department and will be on display in a day or so.

BE SURE TO BOIL ALL THE WATER YOU DRINK FOR THE NEXT SEVERAL WEEKS. IT WILL HELP TO KEEP DOWN DYSENTERY.

SPORTS NEWS AND HIGHLIGHTS
Marshall Smith

Well, spring finally came and with it comes more sports. Basketball is especially popular but the only trouble is, I can't hit the basket, but that can't be helped. The boys of Tanana should get together and make some basketball teams.

The other day I saw a first grader making mud pies, which seems to be the favorite sport of youngsters. But of course when he wanted me to eat one of his pies, I left.

Soon boats will be zooming up and down the river--everyone who owns one seems to be working on it. The other day I saw a man working on his boat and I noticed several large holes in the bottom. I asked what the holes were for and he said that they were to let the water out. It sounded logical but when I tried it on a raft, I guess I didn't make enough holes in the bottom 'cause the water didn't drain out fast enough and I sank.

I must close our little chat because recess time is near--so, see you next year.

P.T.A. MEETING

The Tanana school P.T.A. met Friday evening, May 1, for its final meeting of this school year with the president, Ronald Nusunginya presiding.

A report of our school Fair Committee was given by it's chairman, Fern Peters. The treasurer, Ruby Gaede, gave the report of the Fair income.

It was voted to buy playground equipment with the money. The president appointed a committee to work on the same.

Mr. Romer's room presented a play "This is No Life" which was written by Marshall Smith.

Dr. McQueen, PHS dentist, gave a dental health lecture and showed three dental health films.

Refreshments were served in the office following the meeting..

FOOLED !

I felt his soft breath on my cheek
 The gentle touch of his hand,
 His very presence near me, like a
 breeze on a desert sand.
 He deftly sought my lips and my
 hand did gently hold;
 Then he broke the silence with,
 "Shall the filling be silver or gold?"

Larry: I'm as famous as George Washington and Abe Lincoln now.

Andrew: How did you do it?

Larry: I just went down in history.

"A woman's final decision is not necessarily the same as the one she makes later."

"Most small children are so fascinated by flowers that they can't wait to see them come up --roots and all."

"It's strange that so many smart people work for such ignorant bosses."

These days most school children are trying to WIN GRADES AND INFLUENCE TEACHERS.

Mr. Romer: Compare the death rate at the time of Columbus with the death rate of today!

"The best craft for a man or woman in the rough sea of matrimony is a raft of kids. Helena: Just the same--one per person."
